

Dr. Eve Valera, PhD
Associate Professor in Psychiatry at Harvard Medical School
Research Scientist at Massachusetts General Hospital

Dr. Valera, Associate Professor in Psychiatry at Harvard Medical School and Research Scientist at Massachusetts General Hospital has worked in the field of domestic violence for 25 years using a range of methodologies to understand the brain-related, cognitive, and psychological consequences of brain injuries from intimate partner-violence. She has authored over 50 publications and has obtained numerous grants to support her research. She regularly lectures internationally and has been interviewed by numerous news sources (e.g., TV news, NYT Magazine, Forbes, USA Today, CBC Canadian radio). She is actively engaged in training stakeholders and raising awareness of this global public health epidemic.
