

**Michelle Ranae Wild**  
**President and CEO**  
**Brain Education Strategies and Technology, Inc.**

Michelle Ranae Wild is a professor at Coastline Community College and has taught in Coastline's Acquired Brain Injury Program for over 30 years. In addition, she is the Founder/CEO of Brain Education Strategies and Technology (BEST), a nonprofit that provides free and low-cost solutions for brain injury survivors struggling with ongoing day-to-day cognitive challenges. BEST provides cognitive skills webinars and workshops for individuals with cognitive challenges, their caregivers, and the professionals who work with them. In addition, the BEST Suite app was released to help with executive function challenges. Her materials are in use in various schools, rehabilitation facilities, VA hospitals, and military hospitals across the country.
